Select the appropriate responses below (Yes, No, Not Applicable) to note compliance as a recipient of Incremental High Cost support, High Cost support to offset access charge reductions, and Connect America Phase II support as set forth in 47 CFR § 54.313(b),(c),(d),(e). The information reported on this form and in the documents attached below is accurate.

Incremental Connect America Phase I reporting

<2011> 3rd Year Certification 47 CFR §54.313(b)(1)(ii) - Note that for the July 2017 certification, this applies to Round 2 recipients of Incremental Support.

Not Applicable

<2022> Recipient certifies, representing year three after filing a notice of acceptance of funding pursuant to 54.312(c), that the locations in question are not receiving support under the Broadband Initiatives Program or the Broadband Technology Opportunities Program for projects that will provide broadband with speeds of at least 4 Mbps/1Mbps - 54.313(b)(2)(i). Round 2 recipients only.

Not Applicable

<2023> The attachment on line 2024 includes a statement of the total amount of capital funding expended in the previous year in meeting Connect America Phase I deployment obligations, accompanied by a list of census blocks indicating where funding was spent. This covers year three - 54.313(b)(2)(ii). Round 2 recipients only.

Not Applicable

<2024A> Round 2 Recipient of Incremental Support?

No

<2024B> Attach list of census blocks indicating where funding was spent in year three - 54.313(b)(2)(ii). Round 2 recipients only.

Name of Attached Document Listing
Required Information

<2025A> Round 2 Recipient of Incremental Support?

No

<2025B> Attach geocoded Information for Phase I milestone reports (Round 2 for year three) - Connect America Fund , WC Docket 10-90, Report and Order, FCC 13-73, paragraph 35 (May 22, 2013).

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission’s public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

Name of Attached Document Listing Required Information

Service Quality Standards & Consumer Protection Rules Compliance

ACS of Alaska, LLC - Greatland, as a common carrier and an Eligible Telecommunications Carrier (ETC), is in compliance with the applicable consumer protection and service quality standards as set out in 47 CFR § 54.313(a)(5) and 47 CFR § 54.422(b)(3).

ACS of Alaska, LLC - Greatland maintains a main office located at 600 Telephone Avenue, Anchorage, AK. These offices are staffed during Commission business hours with personnel who can assist customers with their service needs. ACS of Alaska, LLC - Greatland also maintains a local and a toll-free number by which customers may reach personnel for assistance with their service needs.

ACS of Alaska, LLC - Greatland maintains consumer complaint procedures on their website for access by customers. Consumers may go to <http://www.alaskacommunications.com> and access our Frequently Asked Questions, or use a web-form to contact ACS of Alaska, LLC - Greatland directly with a specific question.

ACS of Alaska, LLC - Greatland, as a common carrier and an Eligible Telecommunications Carrier (ETC), provided service throughout its ETC serving area to customers requesting service.

FCC Form 481

Functionality in Emergency Situations

ACS of Alaska, LLC - Greatland, as a common carrier and an Eligible Telecommunications Carrier (ETC), is in compliance with the requirements set out in 47 CFR § 54.313(a)(6), 47 CFR § 54.422(b)(4), and 47 CFR § 54.202(a)(2) regarding functionality in emergency situations.

ACS of Alaska, LLC - Greatland maintains a minimum of eight (8) hours of backup power in order to ensure functionality without local AC commercial power.

ACS of Alaska, LLC - Greatland has established, to the extent feasible, the ability to reroute traffic around damaged facilities and to manage traffic spikes resulting from emergency situations.

ACS of Alaska, LLC - Greatland has established procedures for employees to follow in an emergency to prevent or minimize interruption or impairment of telecommunications services.

2016
FCC Form 481
Tribal Land Engagement

Alaska Communications (ACS of Alaska, LLC, ACS of Anchorage, LLC, ACS of Fairbanks, LLC, ACS of the Northland, LLC, or ACS) supplements the Form 481 filing with the following information on its outreach and discussions with Tribal entities within its serving area. Alaska has 229 Tribal entities and all of Alaska is considered Tribal land. Forty- four Tribal entities are within the ACS certificated local exchange boundaries. Many of the villages are in remote and isolated locations. Alaska Communications provides the only wireline voice service and, where available, broadband. In 2015, in response to the requirements of Section 54.313 (a)(9), Alaska Communications continued its outreach efforts, engaging in conversations with 44 different Tribal entities, comprising over 400 separate contacts with representatives of Tribal villages, councils, corporations, and associations representing the tribal entities regarding their respective voice and broadband service needs. The deployment planning that emerged in these communities focus on community anchor institutions, feasibility and sustainability planning, and marketing in a culturally sensitive and respectful manner. Our engineers are familiar with the rights-of-way permitting process, land use permitting, facilities siting requirements, and environmental and cultural preservation review processes. Our company is compliant with Tribal business and licensing requirements.

During 2016, Alaska Communications' outreach with tribal representatives included discussions of its middle mile proposal to the Federal Communications Commission and other Alaskan telecommunication providers. This plan was built on the Alaska Broadband Taskforce plan and developed to meet the needs of the many diverse tribal entities in the state. As leaders at Alaska Communications have held conversations with tribal entities as outlined in the following narrative, Alaska Communications proposed a statewide plan that would bring middle mile to remote Native villages in a manner that would be competitively neutral and would provide infrastructure that would help deliver broadband to the 229 Tribal entities in Alaska not just the 44 Tribal entities within ACS serving areas.

ACS continues to seek opportunities to partner with Tribal entities to enhance the delivery of broadband services. One example has been our work with the Kenaitze Indian Tribe. The Kenaitze were federally recognized as a sovereign, independent nation in 1971 under the Indian Reorganization Act as amended for Alaska. Today, they have more than 1,600 tribal members who live across the Kenai Peninsula and beyond. Kenaitze employs about 300 full-time and part-time employees.

The tribe delivers a variety of programs and services that promote the wellness of its' people and the community. In 2014, Kenaitze opened the 52,000-square-foot Dena'ina Wellness Center, a fully integrated healthcare facility offering a wide range of services beneath one roof. They also operate a tribal justice system, early childhood education center, Elders center, social services program, and more.

Alaska Communications has been providing telecommunication services to Kenaitze for over 5 years, and was honored to be selected in a very competitive bidding process for their new

telecommunication services. Given the growth the tribe has seen, in the number of services they are providing and the growth in available healthcare services, their telecommunication service needs have more than doubled in a very short time. Pending federal funding for their telecommunication services, Kenaitze will have one of the most advanced health centers on the Alaska Peninsula serving tribal members, with plans to continue to increase the access to care.

AK Child and Family

AK Child and Family provides a broad range of mental health services to Alaska's youth; a large percentage of the need comes from very rural Western Alaska tribal villages. Alaska Communications has spent the past 5 years working with AK Child and Family to understand their needs as well as the tribal village needs when it comes to behavior health services. Traditionally AK Child and Family has brought youth needing support into a residential treatment program based in Anchorage. When those individuals were done with their treatment, they went back home to the communities that may have caused the problems in the first place, with little ability to follow up in person, given the high cost of travel. Working with local schools, and various Federal funding programs, AK Child was able to expand its' service from an urban residential program, to a holistic program whereby therapists are now able to follow up in person via video and provide continued support, as well as offer community training, such as how to identify suicidal thoughts and tendencies, and how to address abuse in communities.

Another example of how health care has been improved with telecommunication services in interior Alaska includes the Railbelt Mental Health and Addictions Outpatient Community Behavioral Center. In partnership with Alaska Communications and federal funding from the USAC Rural Health Care program, Railbelt Mental Health has been able to increase and improve access to behavioral healthcare in Nenana, a tribal village.

Leaders from Alaska Communications participated in the Alaska Federation of Natives conference in Fairbanks and the Arctic Broadband Summit in Barrow to meet with tribal entities from across the state and listen to concerns and need for affordable, reliable, high-speed broadband. Alaska Communications continues to have one on one meetings and telephone calls with tribal entities to discuss rural health care needs as they relate to affordable and reliable high speed broadband. Alaska Communications has had multiple conversations with tribal entities advising them of potential funding issues with the FCC's Rural Health Care program.

Bringing telecommunications to these remote areas requires infrastructure and Alaska Communications continues to understand needs and work to identify how to best partner with remote locations such as those served by facilities being put into service by Quintillion. Conversations are being held with NANA Regional Corporation on how Alaska Communications may be able to deliver more advanced services to this region with 11 villages in northwest Alaska as infrastructure from the Quintillion Network becomes available. Other tribal organizations included in these discussions are Kikiktagruk Inupiat Corporation in Kotzebue and Ukepeagvik Inupiat Corporation in Barrow. Alaska Communications continues to work with these tribal entities to identify broadband needs so that, in addition to improved education and rural health care, the tribal entities are able to bring value to the shareholders' lives. Quintillion

is expected to be operational by the end of 2017.

Alaska Communications has always worked with Tribal entities to deliver communication services to remote and isolated communities as well as the rural and urban parts of Alaska. Our company works with Tribal entities to preserve cultural aspects of the community. There have been times that our already-short season for network construction work has been delayed or accelerated to meet the needs of a community moving or preserving cultural artifacts.
